CREAM OF NEWS.

**Almost a Fatal Fall.**  
John Orr, a carpenter who was at work on the roof of F. E. Ellis' house, fell off Tuesday and was badly hurt. He was engaged in putting on a shingle roof and the scaffolding broke. He fell feet foremost and reached the scaffold at the edge of the porch, which he struck and was thrown head foremost to the ground, a distance of seventeen feet. His injuries were at first thought to be fatal, but they proved to be less serious than at first supposed. He struck on his head and shoulders, but the ground being soft and muddy no bones were broken. The principal injuries are a sprained back, several bad bruises, internal hurts and a dislocated finger. Prompt attention was given by a physician and Mr. Orr is now getting along pretty well, but as he is well advanced in years his recovery will probably be slow, though he hopes to be out in a couple of weeks.

**Paul Banks Killed.**  
Paul H. Banks, a lawyer of Henderson, was thrown from a buggy in the streets of that city late Saturday evening and killed. Frank B. Dudley, who was driving with him, was also badly injured, but will recover. According to the newspaper accounts both young men were under the influence of liquor and were dashing through the streets at a break-neck speed, whipping the horses, until in turning a corner both of them were thrown out. Banks' neck was broken and he died in forty minutes. Dudley was knocked senseless and did not regain consciousness for several hours. Banks was a brother-in-law of E. G. Sebree, Jr., formerly of this city, and was 36 years of age. He was a lawyer of considerable prominence, in spite of his dissipated habits. Dudley was a mechanic, who lived in Sullivan, Ind.

**Dr. Lillard Resigns.**  
The Dullin-Lillard contest has been stopped by the resignation of Dr. Lillard. Preparations had been made to begin taking depositions Tuesday, but early that morning Dr. Lillard went to the county judge's office and formally tendered his resignation, and declined to qualify upon the grounds of illegibility. He has been in the State but 18 months, when the constitution requires a residence of two years. This ends the contest and Dr. Dullin, who was appointed until his successor should qualify, still holds over and will inaugurate next August.

South Kentucky College opened Tuesday with 16 or 18 boarders in the college and 12 or 15 young men boarding in families in town. The number of pupils for the opening week is in excess of last year's opening, and Prof. Scobey is highly pleased at his prospects for the session.

Mr. Morris Cohen, of Marshallfield, Mo., who recently bought out N. B. Shyer, has arrived and taken possession of the stock. He will at once get ready for the fall trade. If Mr. Cohen advertises his business properly he will have no trouble in building up a good trade, as he has the advantage of a good stand.

The attendance at Bethel Female College is constantly increasing. The usual number of boarders will soon be in attendance and the applications for matriculation from a distance indicate an increase of patronage. The faculty this year is quite superior. Miss Crauk, of Charlottesville, Va., is happily endowed with excellent culture, fine executive skill and the rare ability to impart information so that it will be retained by the pupils. The other members of the faculty are well-known to the public. This old institution is still worthy of its past history, and receives the patronage of the best people in the South.

**THE BOARD OF COMMISSIONERS' REGULAR MEETING.**  
Bills Paid Amounting to \$7,700.  
The Board of Commissioners of the Western Kentucky Lunatic Asylum held their regular meeting Tuesday. Commissioners Green, Jarrett, Plack and Petree were absent.  
The expenditures for the month of August footed up about \$7,700. These accounts were allowed in the usual way. The Superintendent in his report explained that a number of liabilities had been incurred outside of the regular purchased of supplies.

Among these was a machine for the laundry, which cost \$1,500; a fence for the picket fence, \$100; painting and other necessary repairs on the buildings \$1,000; new fencing on two sides of the garden, and an increased supply of coal, 4,000 bushels having been put into the coal house during the month. Dr. Stooce also advised the Board that in order to meet the demands of the institution the number of attendants had been increased from 21 to 28.

**MORE PROGRESS.**  
A Franchise Granted to an Electric Light and Railway Plant.  
The only measure of importance that came before the council at its regular meeting Tuesday night was an application from S. H. Turner and others for a street railway and electric light franchise, to be operated in conjunction by a company of local capitalists. Two of the councilmen, Messrs. Radford and Campbell, were absent and after a free and exhaustive discussion of the matter, which was presented by Mr. Turner and Mr. Feary, the latter representing the Thompson-Houston company, of Louisville, the subject was postponed until Wednesday night, to get a full meeting of the board.

At the Wednesday night meeting it was developed that Mr. Campbell was opposed to the grant and he made a strong effort to defeat the scheme. Mr. Feary was again present and explained the proposition to the minutest detail, which was an exceedingly fair and liberal one, but Mr. Campbell made a lengthy speech against it and finally voted against its passage, all of the other members voting aye.

Briefly stated the proposition is that the company will build five miles or more of railroad to run from the asylum to the driving park and from the cemetery to the south main city limits. One mile is to be in operation in one year, two miles in two years and all streets not occupied in two years are to revert to the city. The company is to have a twenty-five year franchise from time of completion. The proposition goes into all details of charges, mode of operation, etc. The electric light plant is to be operated by the same machinery, which will cheapen both light and transit. The city's contract with the gas company runs till 1892, but the electric lights can be sold to private citizens. The contract entered into is a very lengthy one and all probable emergencies are covered. It is fair and liberal and we are glad to record one more step towards progress and advancement. Local capitalists are backing Mr. Turner who means business and the work will be begun as soon as possible.

The only way to cure fever and ague is either to neutralize the poison which causes the disease or to expel them from the system. Ayer's Ague Cure operates in both ways. It is a warranted specific for all forms of malarial disorders, and never fails to cure. Try it.

**Why Sells Brothers and Barrett Succeeded.**  
There is as much difference between shows as there is between individuals. Take, for instance, Sells Brothers and Barrett's united shows. They are as superior to other contemporaneous exhibitions as Booth and Barrett are to a tramping set of barn-stormers; it towers above the average show as the Sierra Nevada range does above a miner's cabin; as the big trees of California above a hazel brush. This monster coalition travels in princely style, employing over a thousand people. Notwithstanding the enormous expense attending such a monster enterprise, the admission is no more than many of the small indifferent shows charge. Barrett's show alone has always been the peer of any of its rivals except Sells Brothers' great show, and both now are united and will exhibit as one at Hopkinsville on Wednesday Sept. 13th.
